

## AFFEW NEWSLETTER

July 1993

### EVENTS

Adopt-A-Highway crew will spring into action on July 15 at 7PM. Call Muriel at 843-3628 to volunteer. No tourists have yet gasped in amazement at the beauty of our part of the highway; let's see if we can change that. Also, our section of road always has the most exciting trash, so don't delay--call now!

There will be a BEACH SWEEP adventure at 7 PM on July 13. Meet at the FCS (fish cleaning station). This is the time of year to find castaways--don't miss this chance.

Keep up with the Joneses! There will be a GARAGE SALE on August 7 from 9AM to 4 PM. This will be held at Pat Willick's at 6532 Virnetta in Ludington. Call 843-8273 to coordinate making donations. Please limit donations of clothes to really great stuff, though.

### SPEECHES, etc.

There will be a meeting on the Great Lakes Initiative on July 27 at 7PM. This will be held in the State Park Visitor Center, and the speaker will be Tanya Cabala of the Lake Michigan Federation. This is one of those things we'd better be interested in--it deals with the treatment of all the Lakes by surrounding governmental units. The EPA will be accepting public comment until September; attend the meeting and get some information so that you can comment with wisdom. Probably very few people will say anything to the EPA, so your input may carry a lot of weight, and you could even counteract some lobbyists, who are always politically incorrect.

There will be a Great Lakes Renewable Energy Fair on August 6, 7 and 8 in Traverse City at the Senior High School. Armory Lovins, who started the Rocky Mountain Institute (energy exploration) will be speaking. For informaton call 228-7159 or 845-0053.

If you have questions about any of the foregoing, call our resident Oracle at 845-0053. She can give you fairly current rumors regarding the wonderful stuff above.

Any of you who are thinking about contacting Joe's Renta-Glacier to control the hot weather are advised to refrain. Joe doesn't have stuff fully under control, and may overdo it. Remember last summer.
